

TO: All Residents

DATE: November 1, 2023

FROM: Faye Dodd, Executive Director

RE: Cable Television Service

The Housing Authority of Murray will no longer provide bulk cable television services after January 1, 2024. Early notification of this gives each resident time to search for their own provider which certainly includes staying with Murray Electric System (MES) for convenience.

To continue service with MES you will establish your own account with them directly.

If you chose to discontinue your cable television service, any equipment, specifically DTA boxes, will need to be returned to the MES office on Olive Street.

We recommend deciding by December 1, 2023 on your service provider. MES may begin creating service order disconnects on December 15, 2023.

If MES is your current internet provider, this does not affect that service, only cable television.

If you have any further questions please contact MES at 270.762.1719
